Additional HQ information - Dr. Ernst KEMER et al.

MEM-39810, 11 April 1963

1. We have queried the Berlin Document Center in an attempt to obtain as much information as possible concerning your questions listed in reference and have obtained the following:

A. According to the 1943 Berlin address directory, house numbers 30 through 35 on Siegfriedstrasse in Berlin-Mitte were empty because these buildings were to be torn down. There was no further information available after this date concerning these house numbers on Siegfriedstrasse.

B. As far as can be determined, the following is written in the block in the right hand corner directly under the date line in the document discussed in reference (Personal Staff of the Reichsbank SE). The number under this is most probably a correspondence control number.

C. Professor KEMER was head of "Thaumagant" in the "Reichsbankentwertung". The Aktion Professor KEMER could either mean his efforts to get all research specialists of German Universities for development and research projects of the German Navy, or it could mean an action made by the Reich Ministry of Propaganda to obtain the publishing of technical magazines which had been discontinued as a result of the war. Further information about "Aktion Professor KEMER" is not available.
